

## Connect Live!

**Bently Nevada has launched its next generation platform of condition monitoring! Learn more and connect with us in person at these upcoming events.**

Bently Nevada has launched its next generation platform of condition monitoring! Learn more and connect with us in person at upcoming events, where our leaders can share more about condition monitoring, torque, portable solutions, and the latest wireless IIOT hardware. Take in the power of System 1 through a software demo and see the unseen. Listen to our presenters and learn from a wide range of case studies. Our team has a legacy of innovation, with over 60 years of experience, we are proud to be a trusted partner and service provider worldwide...we invite you to look beyond, with Bently Nevada.

## Learn. Share. Experience.

In addition to seeing us at many of the events over the remainder of the year, you may also have the opportunity to interact with us at our Bently Nevada Headquarters for the Customer Forum this October, 14-17, 2019.

The Forum will consist of a two-day conference to be held in Minden, NV, where we will learn about new technology advancements and share application knowledge and best practices, followed by an optional third day that can be customized for your needs.

The Forum will be focused around the following topics and application areas:

- Customer and Industry Analyst panels – ARC & Others
- Cyber, IIOT, & Asset Management
- Advanced Technologies & Emerging industry challenges
- Plant-wide / Condition Monitoring & Wireless Solutions
- Tour of Bently Nevada facility, including Demonstrations
- In-Depth System & Software Workshops

### **Registration Required – Space is Limited**

If you are interested in attending the Customer Advisory Forum event, sharing your application knowledge, best practices or experience, please contact [Jennifer Scott](#).

## **About Bently Nevada**

Bently Nevada has been synonymous with machinery protection and condition monitoring for more than 60 years. Our network of global experts is dedicated to helping customers solve some of their toughest challenges. From refineries and petrochemical plants to hydroelectric facilities and wind farms, Bently Nevada Asset Condition Monitoring offers trusted and proven vibration monitoring equipment and a comprehensive services portfolio to help improve the reliability and performance of production assets like turbines, compressors, motors, generators, and everything in between.

Behind every suite of great products is a team of great people, and the Bently Nevada team is one of the most experienced in the industry. That experience translates into high-quality, flexible and scalable solutions coupled with a dedicated services team focused on providing proactive, consistent support throughout the lifecycle of your operations. Our domain experts can help you operate safely while maximizing plant uptime and efficiency.
