

Orbit 60 Series

architected with intrinsic cybersecurity and data integration and segregation

100x
processing power vs. industry standard—with variable signal processing

50%
smaller than industry standard

2x
the channel count compared to industry average

UNMATCHED GLOBAL EXPERIENCE

60
years of innovation

100,000
rack monitoring systems

6,000,000
sensors deployed globally

EVOLVED FROM THE TRUSTED 3500 SERIES

86,000+
racks installed worldwide

60,000
oil and gas

20,000
power generation

5,000
industries

1,000
hydro electric
