2D and 3D X-ray Inspection: Brazil
Providing Radiography Expertise, Access and Innovation

GLOBAL CUSTOMER SOLUTIONS CENTERS

Our Latin American Customer Solutions Centers
- 140 square meters
- 3 Radiography systems, 2D + 3D
- Radiology industrial X-ray deep domain expert
- Located: Campinas
- Regularly provided training in purpose built facilities

Our global locations:

CHALLENGES WE SOLVE

World Class Inspection On Demand via Expertise, Access and Innovation

- Need X-ray expertise / guidance?
- Want access to the latest industrial X-ray technology?
- Help with application development?
- Require scan of a complex or unique part?
- Short on inspection capacity?
- Isolate a recent failure event?
- Require classroom or on-site training?
- Want to add a modality or improve your level?
- Support for qualification testing?
- Obtain a new research grant?
- Need a demonstration?
- Require education, access to radiography technology and inspection services mitigate quality, safety and financial risks.

X-RAY INSPECTION INDUSTRIES AND APPLICATIONS

Aviation
- Blades and vanes
- Structural components
- Advanced materials
- Composites
- Additive Manufacturing

Electronics
- Batteries
- Wearables
- Semiconductors
- Circuit boards / PCBAs

Medical Devices
- Dental devices
- Orthopedic implants
- Implanted devices
- Additive applications

Power Generation
- Baskets, blades and vanes
- Castings, Additive Manufacturing
- Wax patterns and molds
- Weld inspection

Automotive
- Batteries
- Electric motors
- Engine blocks
- Safety critical components

R&D, Academia
- Engineering
- Biology
- Materials science
- Geology + Archeology

Oil & Gas
- Corrosion
- Erosion
- Welding seams
