2D and 3D X-ray Inspection: China
Providing Access, Expertise and Innovations in Radiography

GLOBAL CUSTOMER SOLUTIONS CENTERS

China
Our Chinese Customer Solutions Centers
• 1,960 square meters
• 14 radiography systems, 2D + 3D
• 2 climate-controlled metrology rooms
• 2 locations: Shanghai + Dongguan
• All new 9MeV high energy system
• Providing regular training in specially designed facilities

World Class Inspection On Demand via Expertise, Access and Innovation
• Need X-ray expertise / guidance?
• Want access to the latest X-ray technology?
• Help with application development?
• Require scan of a large or unique part?
• Short on inspection capacity?
• Had a recent failure event?
• Require classroom or on-site training?
• Want to add a modality or improve your level?
• Support to qualification testing?
• Obtain a new research grant?
• Need a demonstration?

X-RAY INSPECTION INDUSTRIES AND APPLICATIONS

Aviation
Blades and vanes
Structural components
Composites

Electronics
Batteries
Wearables
Semiconductors
PCB/PCBA

Power Generation
Buckets, blades and vanes
Castings
Water patterns and molds
Weld inspection

Additive Manufacturing
Prototypes
End-use parts and components
Blades, vanes and fuel nozzles
Turbine parts, heat exchangers

Automotive
Batteries
Electric motors
Engine blocks
Critical safety components

R&D
Engineering
Biology
Materials science

Oil & Gas
Corrosion
Erosion
Welding seams

Implementation of radiography technologies and inspection services can significantly mitigate risks in quality and markets.

The Bottom Line
